

Prompt Deployment Guide

Prompt Guide: How to Deploy in ChatGPT, Claude, and OpenRouter

Prompt Guide: How to Deploy in ChatGPT, Claude, and OpenRouter

GPT-4 (ChatGPT Pro)

****Best For:**** Execution logic, structured SOPs, transformation arcs, funnel architecture

****How to Deploy:****

1. Paste the full prompt into a new chat.
2. Begin with:
> "Phase 1: Scan Top 10 profitable eBook niches. Use BSR + Google Trends. Return with estimates and product links."
3. Use follow-ups to initiate Phase 26.

Claude 3 Opus

****Best For:**** Emotional tone, literary refinement, narrative voice, high-context summarization

****How to Deploy:****

1. Start with:
> "Act as my narrative and emotional intelligence strategist. Refine the tone of this ADHD productivity workbook section"
2. Paste in writing samples, prompts, or outlines.

OpenRouter## (Multi-Agent Orchestration)

****Best For:**** Multi-model chains with real-time validation

****How to Deploy:****

1. Use the provided JSON agent config.
2. Assign:
 - GPT-4 = Tactical blueprint execution
 - Claude = Copy + narrative polish
 - Command R+ = BSR + competitive data
 - Mistral = Ad hook testing
3. Chain phases in Langchain, n8n, or a custom orchestrator.
